3. PROJECT DETAILS

Facility / Project Name		**Nature of Project**	
County		**Physical Address**	
GPS Location		**Project Capacity (kWp)**	
Model of Project Implementation		**Date of Completion**	

SAN MARINA ENGINEERING CO. LIMITED

Licensed Solar PV Contractor

SOLAR PV WORKS COMPLETION CERTIFICATE - TECHNICAL SCHEDULE

Certificate No. _____ **Date issued** _____

4. COMPONENTS INSTALLED

The details of the components installed are:

#	Item	Rating	No. Installed	Model No	Manufacturer	Warranty (Yrs)
1	Solar Module					
2	Inverter					
3	Battery					
4	Charge Controller					
5	Mounting Structure					
6	Protection/Isolation Equipment					
7	Cables and Connectors					
8	Other					

5. INSTALLATION TESTS

The following tests were performed on the installation. The test values obtained are attached hereto.

#	Test	Test Value / Remarks	Pass/Fail
1	Visual Inspection Tests		
2	Polarity		
3	Continuity		
4	String Open Circuit Voltage (Voc)		
5	String Short Circuit Current (Isc)		
6	Insulation Resistance Test		
7	Earth Loop Impedance Test		
8	Earth Resistance Test		
9	Functional Tests		

6. CONTRACTOR CERTIFICATION

I/We certify that:

1. The design and installation of the solar PV system has been completed in compliance with the relevant Kenya Standard and all applicable health, safety and environmental laws as provided in the Energy (Solar Photovoltaic Systems) Regulations, 2012.

2. The client has been provided with the following documentation relating to the system:

[ ] Warranty for the installation workmanship.
[ ] "As built" system design and drawings.
[ ] Warranties on the solar PV system or components issued by the manufacturer, importer or vendor.
[ ] User manuals for the solar PV system.
[ ] Safety datasheets for solar PV components/systems.
[ ] Instructions for the safe disposal of the solar PV system and system components.

3. The client has been trained on the operation, safe use and maintenance of the solar PV system.

7. SIGN-OFF

Licensed Contractor / Authorized Signatory	
EPRA Contractor Licence No.
